

TASK CARD 14: How to save sent images

iPad

This card shows you how to save images that someone has sent you in an e-mail so they are added to your i-pad gallery of pictures

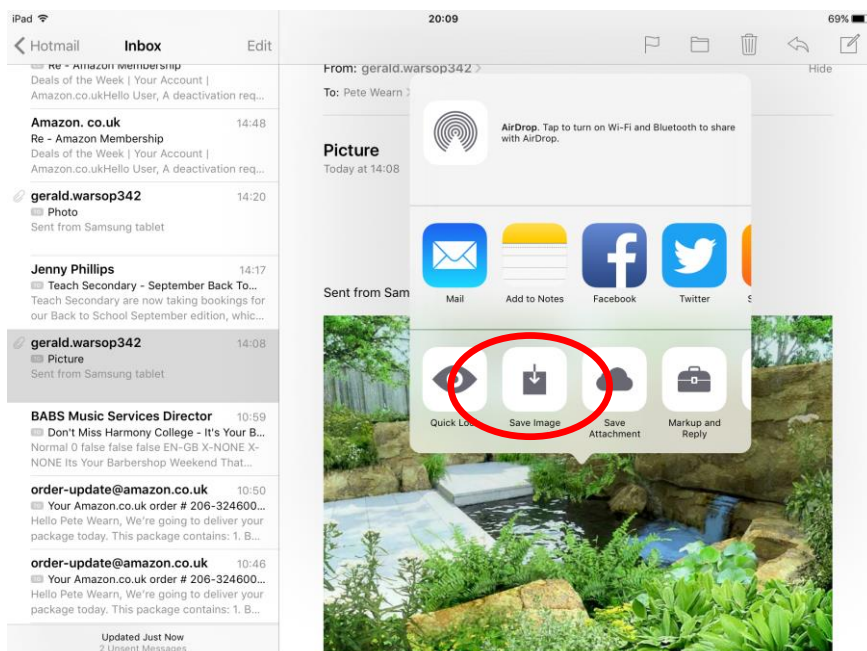

1

First open the email that has the image you want to save

2

Here you see an email I was sent. To save the picture, press and hold your finger on the picture until what we call a dialogue box appears with various options as shown in the screenshot below. Tap the "Save image" icon (ringed).

Now check in your Pictures

You will find the image of the garden has been added to your photos.
