

TASK CARD T10: how to play music

And

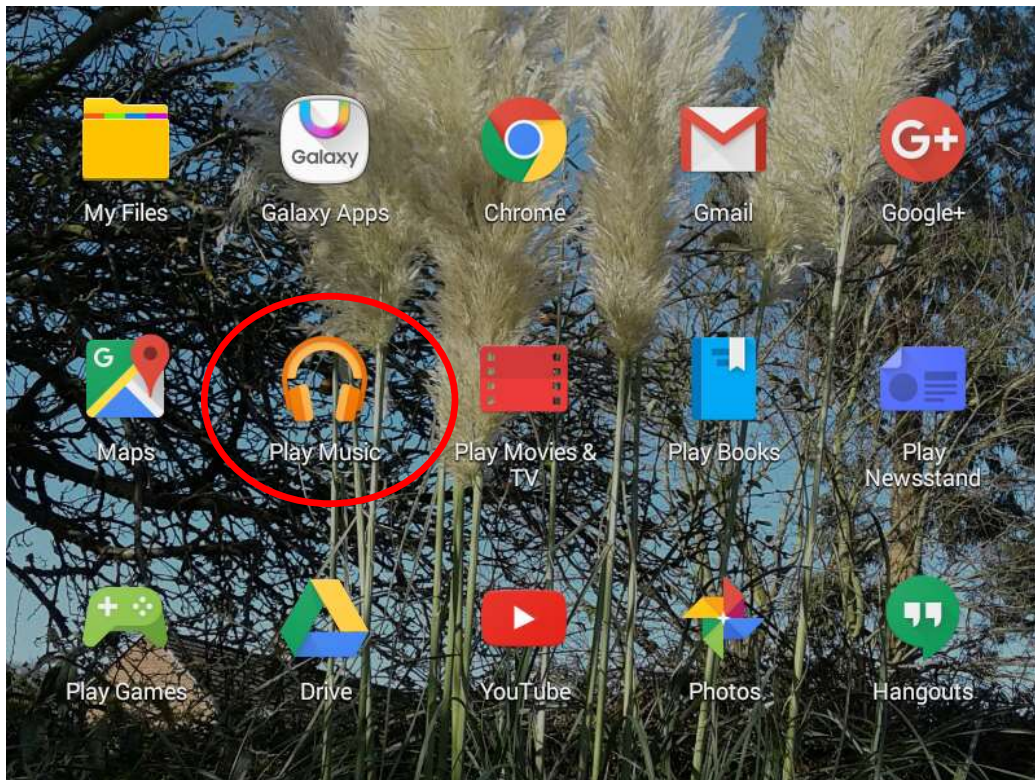

This card shows you how to play music on your tablet. For most people this is one of the joys of owning a tablet. You can download music and then using earphones can play it wherever you take your tablet eg on a train journey,

Many people like apps like Spotify which stream music some of it free of charge. This card does not include any of those options such as Spotify.

1 First tap the "All Apps" icon on the Home Screen.

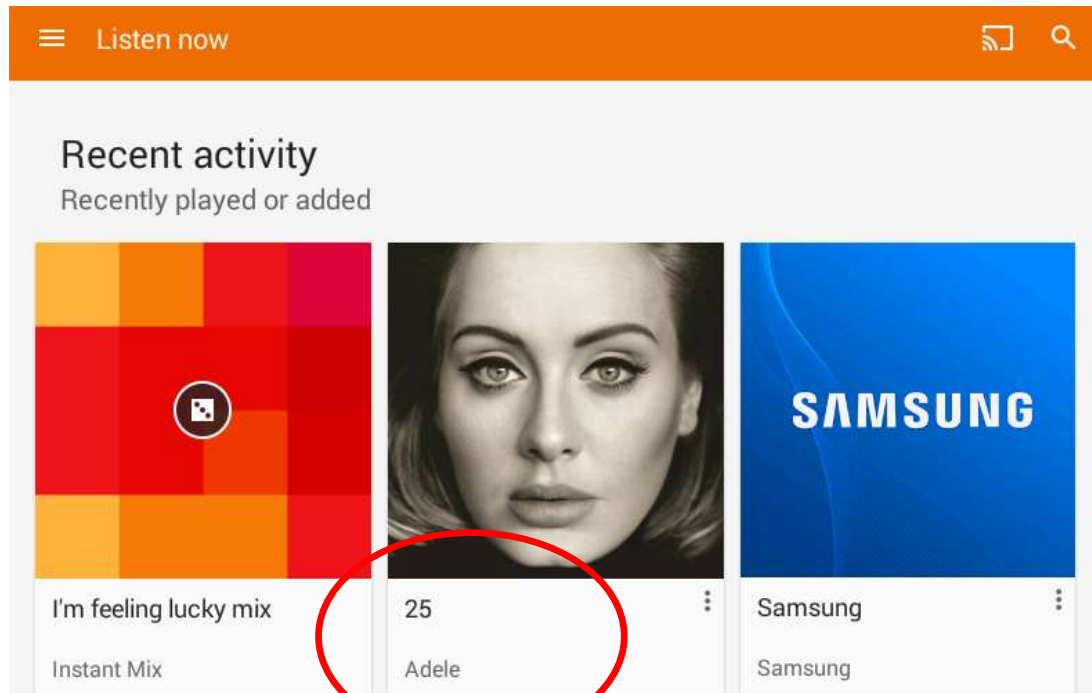

2 Then find the "Play Music" symbol on the All Apps screen.

3

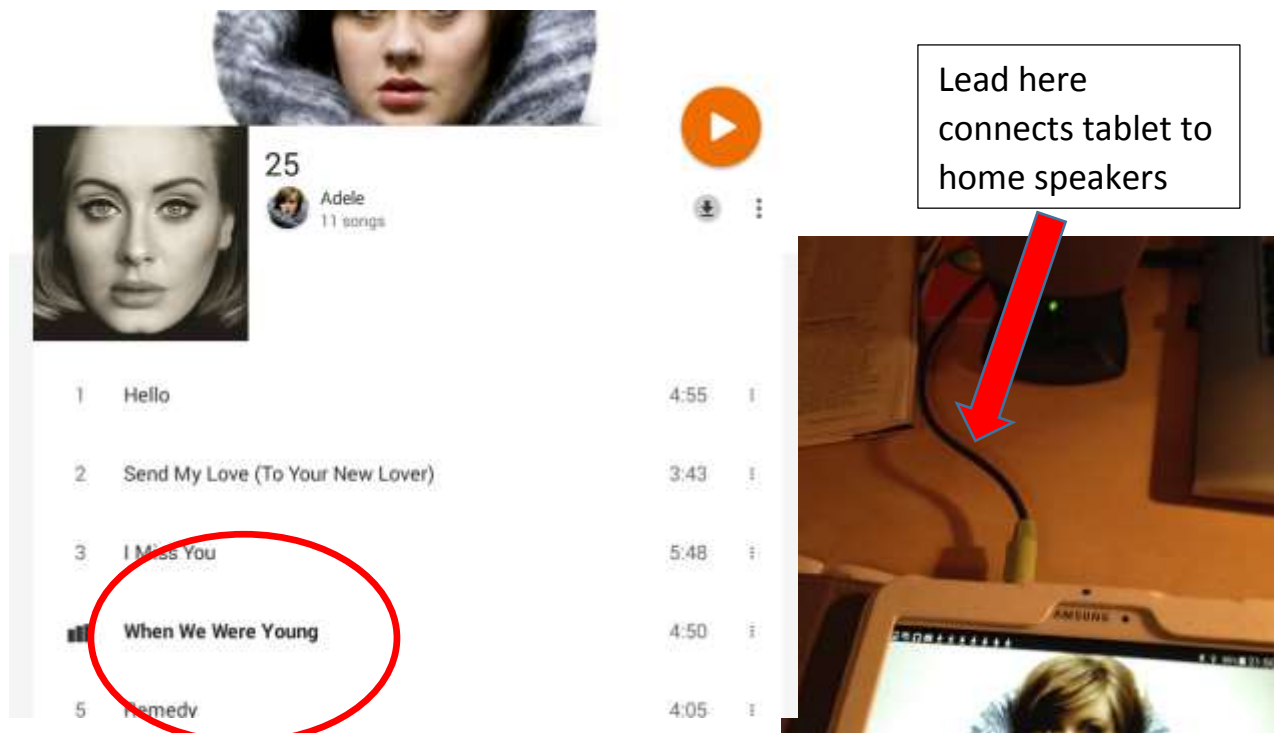

On the next "Listen Now" screen, choose what music you want to hear and tap on it . Here I select a recent album from Adele.

4

A new screen opens showing you the songs on the album for you to choose!

Lead here connects tablet to home speakers

Your tablet has a socket for plugging in either a pair of headphones or you can connect up to your home speakers. Alternatively battery operated Boom speakers can be connected via Bluetooth which can be switched on from your "Settings"
